

Before your first appointment checklist

- Complete the online new patient form immediately. This form will email back to Dr Marsden/Dr MacPherson.

Please note: Blood and ultrasound forms cannot be completed for you until the new patient form has been completed.

- Ensure that all forms on the emailed website link are read before your appointment. Please come to your appointment with any questions you may have about this information. If you would like to discuss the information earlier than your appointment; please call our office on 3286 1122 and speak with Beth.
- Ensure that blood test and ultrasound are completed at least 24 hours before (where possible) your appointment with Dr Marsden or Dr MacPherson so that we can ensure that your results arrive on time.

If you have had your blood test and ultrasound through your local GP, please discuss this with the clinic so that we can arrange to have a copy sent to Dr Marsden or Dr MacPherson.

Should you have any queries or concerns before your appointment, please contact our office on 3286 1122.
