

## Post Vaccination Information

Congratulations for committing to Shooing the Flu this year with your workplace and Pivotal Health!

You have just been vaccinated with the 2022 seasonal Influenza Vaccine. This vaccine protects you against the following 4 strains of Influenza:

- An A/Victoria/2570/2019 (H1N1)pdm09-like virus;
- An A/Darwin/9/2021 (H3N2)-like virus;
- A B/Austria/1359417/2021-like (B/Victoria lineage) virus
- A B/Phuket/3073/2013-like (B/Yamagata lineage) virus

Influenza vaccination helps protect most people from Influenza, but it may have unwanted side effects in less than 5 in 100 people.

Most unwanted side effects are mild and usually clear up in a few days. Some side effects may include: redness around injection site, headache, muscle aches and pains and feeling of malaise (generally unwell).

Should you be at all concerned with any side affects you may experience in the next few days, please contact our practice (Pivotal Health) on 3286 1122.

**VACCINE: ALFURIA® QUAD 2022 SEASON. BATCH NUMBER 333220**
